

Ifö Electric in Bromölla, on the border between Skåne and Blekinge, by the beautiful Ivö lake, has concentrated on ceramics – Nature's own material – for more than 100 years. After decades in the grip of plastic and metal, both electricians and end-users have discovered the superior properties of ceramics. Easier to keep clean, longer lifespan, enhanced resistance to heat, not prone to discolouring and also withstand damp, cold and aggressive environments.
