| Diameter Ø | 98 mm |
| Glass | Matt opal |
| Thread | 84,5 mm |
| Weight | 1,376 kg |
| Design | Kauppi & Kauppi |

Installation

Route the mains cable from the roof through the gasket. Attach the gasket with the help of the hook and suitable screws according to the installation instructions. (Screws not included.) Hang the luminaire in the hook and connect the wires to the terminal block. Raise the ceiling rose so that it seals tightly against the roof and secure it with the cord grip. Fasten the shade with the gasket between glass and base.

Technical information

Equipped with textile cable (2m), porcelain ceiling rose and terminal block. The luminaire is approved for use in IP44-rated areas, indoors only.

Maintenance

Switch off the power to the luminaire. Unscrew the glass and clean it, preferably washed in a dishwasher. Do not use cleaning agents containing solvents. Replace the light source if necessary and fasten the shade after cleaning.

Spare parts

Shade: 1-6160-30
 Gasket: 02786-1

*** The device must under no circumstances be connected to the same phase as a magnetic ballast or other older fluorescent luminaires as these luminaires can generate overvoltage transients outside of EU regulatory standards when switched off or on. The luminaire can permanently damage or completely cease to function when connected.*

If the luminaire is modified the person responsible for the modification shall be considered manufacturer. Subject to errors in text. We reserve the right to change the technical specifications (without notice).
